

ROUND UP SUSPECTS IN DRAFT PLOTS

**Ten Arrests Made By
Western Missouri and
Kansas Authorities**

WILL ARREST OTHERS

**Federal Attorney Asserts Those
Taken Into Custody Will
Total Large Number**

FILES TREASON CHARGES

KANSAS CITY, Mo., May 31.—Federal authorities of western Missouri and Kansas began late today the rounding up of persons suspected of being participants in alleged anti-conscription plots. Four men and one woman were taken into custody here, one man was arrested at Lawrence, Kans., while at Topeka, Kans., three other men and a woman were caught in the net spread by the investigators of the department of justice, the secret service and the United States attorney's office.

Will Reach Large Number.
The arrests here were only the first which Francis Wilson, federal attorney for this section of Missouri, said would reach a large number before the convening June 6 of the special grand jury, called to consider only cases growing out of alleged violations of the registration act. Those arrested here were charged with having conspired to aid and abet persons subject to registration to evade the requirements of the conscription act. The maximum penalty was said to be imprisonment of two years and a fine of \$10,000.

Two of those arrested here—Raymond I. Moore and Thomas Sullivan—earlier in the day had sought unsuccessfully to obtain an injunction in the Jackson county circuit court to prevent Governor Gardner, Mayor Edwards and other officials from enforcing the registration next Tuesday. Judge Daniel Bird had denied all points in their petition and their attorney, J. D. Shewalter, was obtaining a certified appeal petition when secret service agents arrested them before they had left the court house. The three others held here are Moore's wife, who was Miss Leonarda Warrenson, the public school teacher who came into conflict with school board authorities here recently after she had written anti-enlistment mottoes on the blackboard of her school room; Elea Luboshey, a photographer and H. D. Kleinschmidt of Corder, Mo. They were arraigned before federal Commissioner Harry A. Arnold and remanded to jail in default of bonds of \$5,000 each.

Four Taken at Topeka.
The four arrested at Topeka were Dr. Eva Harding of that city who ran for congress as an independent candidate at the last election, the Gilberg, Fred Felten and Ernest Newman. They were taken into custody in connection with the investigation of an alleged anti-conscription meeting at Topeka Sunday night.

Prof. George W. Kleiherger Socialist candidate for governor of Kansas in 1914, was arrested in Lawrence tonight on a federal warrant charging him with conspiracy in connection with agitation against the selective draft law.

Files Treason Charges.
Columbus, O., May 31.—Charges of treason, a capital offense, were filed by United States District Attorney Bollen tonight against three men, who with several others were arrested during the day, in connection with an anti-registration plotting in Columbus.

Each pleaded not guilty before United States Commissioner Johnson and were held under \$25,000 bond to await preliminary hearing Saturday morning. A federal grand jury will be assembled Tuesday to investigate the arrests. Those charged with treason are:

Ammon A. Hennauer, aged 24, a junior last year at Ohio State University.
Harry E. Townsley, a plumber, aged 43.
Cecil W. Bailey, mechanic, aged 25.

Others under arrest for investigation are: Ole Wulmstro, a tinner, and John Lewis Hammond, a miner.

RECORD EARTH TREMORS.
Washington, May 31.—Earthquake tremors lasting over a period of two hours were recorded this morning by the Georgetown University seismograph. They began at 3:57 o'clock, reached their maximum at 4:20 and ceased at 6 o'clock. University experts estimated the center of the disturbance at 4,000 miles distant.

SENATE MAY COMPLETE WAR TAX BILL WEDNESDAY

**Revision Work Reaches Stage
of Detailed Drafting**

Several New Sources of Revenue
Drawn Upon. Other House Taxes
are Reduced and Further Substitutions Adopted

Washington, May 31.—With further trimming of the \$1,800,000,000 war tax bill, the senate finance committee's revision work today reached the stage of detailed drafting, with completion of a measure aggregating about \$1,500,000,000 next Wednesday or Thursday in prospect. Several new sources of revenue were drawn upon today, other house taxes were reduced and further substitutions adopted. The principal changes affecting the general public included:

New Tax on Parcel Post.
A new tax on parcel post packages on one cent on each 25 cents or fraction paid by shippers, and adoption of the same rate for express packages as a substitute for the house levy of six per cent upon express transportation.

Reduction by one half or to five per cent of taxes on amounts paid for land or water transportation including charges for berths or parlor car chairs entailing a loss of revenue of \$25,000,000.

Adoption of excise, or consumption taxes, payable eventually by the consumer of 1-2 cent a pound on sugar, two cents on coffee, five cents on tea and three cents on cocoa.

Repeal of the existing law levying a 1-2 per cent tax on war munitions, now bringing in \$20,000,000 revenue, because of the substitute plan for increasing manufacturers' excess profits taxes.

Bill Ready for Re-Drafting.
With these and several minor changes, Chairman Simmons said the bill now virtually is ready for technical re-drafting, to put in proper form the revisions agreed to and already announced in an effort to agree upon an equitable tax upon newspapers, magazines and other publications now transported for one cent a pound, the committee today arranged for a general conference Saturday night. Chairman Simmons and other members will meet Representatives of the publishers and the postoffice department. In deciding to adopt the new tax on parcel post packages, the committee was said to believe that such action would be but fair to the express companies maintaining present parity of competition between the two services.

Another change designed to maintain competition decided upon today makes the three per cent tax on freight transportation by railroad or water apply also to freight carried by motor vehicle or other mechanical means of transportation which compete with railroads or steamships.

Taxation of radio messages at the same rate imposed upon long distance telegraph and telephone messages—five cents on each message costing 15 cents or more—was decided upon to equalize taxation of all forms of long distance communication.

With the general outline of the committee's revision made public, some senators already are planning vigorous fights on the excise taxes, especially those on sugar and coffee on the ground that they are articles of general consumption and already increased greatly in price. There also will be an effort toward restoring the house tax on inheritances.

ADVANCE BILL TO REGULATE BANKS

SPRINGFIELD, Ill., May 31.—The senate bill to regulate private banks weathered the storm of second reading in the house today and was advanced to order of passage. A motion by Representative Meents, of Ashkum, to strike out the enabling clause was defeated 35 to 41, after hours of oratory and after the bill had been amended to meet in many ways, the objections of downstate private bankers.

Representative Strubinger's amendment to permit incorporation of banks in cities from 10,000 to 50,000 at a minimum of \$50,000 instead of \$100,000 was killed. Representative Meents moved to strike out the bill's enabling clause. He declared that while both parties had declared for regulation of private banks, they had declared for their abolition and that this bill practically proposed that.

PROTEST AGAINST PROPOSED ADV. TAX

CHICAGO, May 31.—Resolutions protesting against the proposed tax on advertising matter in newspapers and against the proposed increase in postage affecting newspapers were adopted at a meeting of the Inland Daily Press association here today.

The resolutions were wired to Chairman Simmons of the senate finance committee.

Frederick Woodson, Owensboro, Ky.; Lafayette Young, De Soto, Mo.; and A. O. Peterson, Waterloo, Ia., were appointed a committee to lobby against adverse newspaper legislation at Washington.

PLACE AUSTRALIAN POTATOES ON MARKET

Chicago, May 31.—Australian potatoes were placed on the Chicago market today for the first time in history. They were dug in February and are beginning to sprout. The importer ordered thirty carloads of them.

JUDGE DENIES INJUNCTION.

Kansas City, Mo., May 31.—Judge Daniel Bird in the circuit court here this afternoon denied an injunction to prevent state officials from enforcing the draft registration next Tuesday.

WOULD PERMIT REAL ESTATE CORPORATIONS

SPRINGFIELD, Ill., May 31.—A bill to permit corporations to be formed for holding and developing real estate passed the senate today. It was introduced by former Senator Landree for the benefit of Moline and other cities in the state which have developed in population faster than housing facilities and where the organization of corporations to build homes for renters was considered a necessity.

The Kessinger bill to compel motor car dealers to record their sales with the Secretary of State also was passed.

ITALIAN PRINCE ADDRESSES SENATE

**Delivers Message to Americans
in Name of King of Italy**

Message Breathes Confidence in Ultimate Victory and Stressed Necessity of Destroying Prestige of a Perverted German Science and Philosophy.

Washington, May 31.—The Prince of Udine, head of the Italian war mission on the floor of the senate today delivered a message to the American people in the name of King Victor Emmanuel, welcoming the entrance of the United States into the war as the final moral justification of the cause for which the allies are fighting. The message breathed confidence in ultimate victory and stressed the necessity of destroying the prestige of a perverted German science and philosophy.

Italy Wants Safety of Boundaries.
"Italy," said the prince, "wants the safety of her boundaries and her coast and she wants to secure her safety against new aggressions. But Italy has not been and never will be an element of discord in Europe and as she will contribute with all her strength to the free existence and development of other nations."

On the entrance of the United States after the violent offense against right had become clear and the American flag had been insulted, he said:

"You bring us the sacred recognition of our right, you bring us moral confidence and that the conviction that our cause is holy and that the great free democracy shares our feeling, our spirit, and our hope."

The prince was received with great enthusiasm by the senate to whom he was introduced by Vice-President Marshall. He appeared in the full dress uniform of a naval captain and was accompanied by the other leading members of the mission. The senators many members of the house and officials, followed his slow English with deep interest.

Meet With American Officials.
The financial and economic members of the Italian mission this afternoon held their first formal meeting with American officials when they discussed with Secretary McAdoo and others at the treasury department the merging of the present intricate Italian purchasing system in this country into the general central committee proposed for all the allies.

A second loan of \$100,000,000 is to be made to Italy for June and announcement is expected shortly. Of the original \$100,000,000 about \$60,000,000 already has been expended by the present Italian purchasing agency here and the balance is expected to be used up in the next few days.

EPIDEMICS NOT FEARED IN STORM SECTIONS

SPRINGFIELD, Ill., May 31.—Contagious diseases at Mattoon and Charleston, where the cyclone of Saturday wrought havoc, are under the control of state health authorities, and epidemics are not feared, Dr. C. St. Clair Drake, secretary of the board of health, stated today. At present there are under quarantine three cases of measles, four small pox and three of scarlet fever, Dr. Drake said.

Men left homeless by the cyclone will be paid a living wage by the state while engaged in clearing away the wreckage, according to the present plan of state relief, Dr. Drake stated. Money for this purpose will, it was said, come out of the appropriation expected from the legislature.

CLOSE REGISTRATION AT FORT SHERIDAN

FORT SHERIDAN, Ill., May 31.—Registration at the reserve officers' training camp has been closed with 4,896 officers and men enrolled, a shortage of 1914 men from the number expected at the camp. Illinois has more officers and nearly as many men at the camp as Wisconsin and Michigan together.

Approximately 4,000 men at the camp are of draft age and their cards are being made out and sent to their home cities, in time for entry before June 3, registration day.

WOULD EXPAND STATION.

Great Lakes, Ill., May 31.—Eighteen million dollars is to be expended in the expansion of the Great Lakes Naval Training Station here, if the approval of congress can be obtained, it was announced today. Captain W. A. Moffett, commandant, received word from the Navy Department approving plans for providing for the use of this sum in quadrupling the capacity of the station enabling it to house 12,000 men.

CALL ON U. S. TO STATE PEACE TERMS

**So-called Conference of
Democracy and Terms of
Peace Takes Action**

ADOPTS RESOLUTIONS

**Message Says, "We Dishonored
Ourselves by Declaring War
Without Definite Cause"**

CRITICISE GOVERNMENT

NEW YORK, May 31.—Resolutions declaring that an "opportunity has been created for bringing the war to an end in the manner most favorable to the people in all lands," and calling upon the government of the United States to "issue a definite and concrete statement of its war aims and its terms of peace," were adopted at the session tonight of the so-called "First American conference of Democracy and terms of peace."

Thousands Turned Away.
Thousands of persons were turned away from the meeting at Madison Square Garden, after that great amphitheater had been filled and the fire department had directed that no more be allowed inside.

The resolutions asserted that the Russian provisional government in repudiating all imperialistic purposes had cleared the way for peace negotiations on the basis of "no forcible annexations, no punitive indemnities and free development of all nations."

The resolutions end with the following:

"Fellow Citizens of the United States make this your demand:

"Join hands with free Russia, save our own nation from the horrors of war and help bleeding Europe to return to the ways of sanity and civilization. Forward for democracy and peace!"

A report of its "committee on American liberties" which pledged support to "all conscientious objectors to the conscription law" and a telegram from former United States Senator John D. Works of California in which he said:

"We dishonored ourselves by declaring war without adequate or reasonable cause," were features of the afternoon session.

Speakers Criticize Government.
Several speakers severely criticized the government, one declaring that "within the last sixty days we have completely transformed our government and the people have had nothing to say about it, so far have they been removed from control of their government."

The same speaker, Gilbert E. Roe, president of the free speech league of America, added that "somewhere along the line the voters of this country must have a chance to express themselves."

Norman L. Thomas, addressing the meeting on conscription and the "attempt to force a man to fight conscientious objector, charged that is worse than the imposition of chattel slavery."

"We must oppose the enactment of such legislation," Thomas asserted, "or all hopes of democracy and peace are made a mockery."

Former Senator Works, in his telegram said in part:

"I am conscientiously opposed to the war and in favor of bringing it to a speedy close by every and legitimate way consistent with the honor of our country. We dishonored ourselves by declaring war without adequate or reasonable cause. We should do the country the honor of correcting that fatal mistake as soon as possible."

URGE INCREASE IN PASSENGER FARES

WASHINGTON, May 31.—Contending that freight is paying a higher proportionate rate than passenger traffic, representatives of Western state railroad commissions today urged the Interstate commerce commission to raise passenger fares instead of granting the fifteen per cent general increase in freight rates for which the railroads are applying. Data prepared by the commissions showing earnings, expenditures, dividends and depreciation of the roads were filed, with intent to show that the roads are in fair financial condition with business on the increase and credit unimpaired.

ONWENTSA CLUB DRY.

Chicago, May 31.—Onwentia Club, one of Chicago's most exclusive organizations is "dry" today, under an order issued by the board of governors for patriotic reasons.

"We decided that out of respect for patriotic preparedness," said A. Sprague, II, president, "that we should take the lead in making the territory about Fort Sheridan and the Great Lakes Naval Training Station, dry."

IMPOSE HEAVY FINES ON BELGIUM

HAVRE, May 16.—(Correspondence of the Associated Press).—A fine of 10,000 marks and three years imprisonment are the penalties imposed by the German authorities on Belgians who date pick up proclamations or objects of any nature dropped by allied aviators in invaded territory. The inhabitants are forbidden to approach any flying machine that may be obliged to light in Belgian territory and are obliged, whenever an aviator lets fall any object whatever, to notify the burgomaster, who, in turn, must report immediately to the Kommandantur.

PROPOSAL WOULD MAKE HOARDING A FELONY

**Senate Adopts Amendment in
Government's Food Bill**

Several Senators Protest That Provision Is Too Drastic and Would Prevent Legitimate Storing to Equalize Markets—Efforts to Modify It Fail.

Washington, May 31.—Hoarding, storage or destruction of food, fuel or other necessities of life to limit supply or affect prices would be a felony under an amendment in the government's food bill adopted in the senate today.

Efforts To Modify It Fail.
Several senators protested that the provision was too drastic and would prevent legitimate storing to equalize markets, but all efforts to modify it failed. Senator Poindeux insisting that any change would weaken the effectiveness of the measure as a weapon against speculators.

Violation of the section would be punishable by imprisonment for not less than six months nor more than three years. Holding by farmers or others of the products of land cultivated by them is exempted.

The second of the food bills, the measure to authorize a food administration and price fixing was discussed today at an executive session in an effort to get harmonious action on the general principles of the measure and the consideration of amendments and the terms of the bill to proceed later.

Pledge Support to Bills.
Representatives of southwestern cattle growing interests called on Herbert C. Hoover and pledged their support to the food bills and to the food administration to be created with Mr. Hoover at its head.

Officers of the Wholesale Grocers' association also saw Mr. Hoover and promised support for the legislation. The chamber of commerce of the United States probably will take a referendum vote of its membership on the food legislation. The chambers' executive committee met here today and discussed the subject.

BRITISH CASUALTIES PUBLISHED IN MAY

LONDON, May 31.—British casualties as published in May show a total of 5,992 officers and 196,331 men.

The British offensive on the Arras front, involving some of the severest fighting of the war, naturally has resulted in a large increase in casualties over the inactive winter season. Casualties for last few months have not been received, but in February, the total reported was only 1,243 officers and 17,185 men.

The assertion of the British that their losses are fifty per cent smaller than in the battle of the Somme notwithstanding the fact that larger forces are engaged, is not borne out by the May figures, also, in the absence of the casualties report. For April, early in which month the offensive was launched, the showing is not conclusive. The casualties recorded in the first three months of the Somme drive were 267,169 officers and men. In August of last year, the second month of the Somme battle, the casualties were 127,543, as compared with 112,133 for May, the second month of the Arras battle.

CALL FOR FREE AND INDEPENDENT POLAND

Austrian Poles Endorse Resolution at a National Convention Held in Cracow

Copenhagen, via London, May 31.—A national convention of Austrian Poles, which was held in Cracow during the Whitenside holiday, unanimously endorsed a resolution of the Parliamentary Polish Club calling for a re-establishment of free and independent Poland, with access to the sea. The question would constitute a guarantee for lasting peace.

The resolution also expressed the hope that the Austrian emperor would support the project in the certainty that the re-establishment of the Polish state thru Austrian help would assure to the monarchy a natural and reliable ally.

Apparently there was no interference from the Austrian authorities altho Cracow, as a fortress, is crowded with Austrian troops. The wording of the resolution is noteworthy for the absence of any reference to Germany, altho it is notorious that Polish hopes for an access to the sea are based on the acquisition of the Russian Danzig. The Poles also require to the inclusion in an independent state of Warsaw and that part of Russian Poland which is now in the hands of the Germans.

Offers Prize to Gunners.
Nice, May 31.—H. W. Marol, an American resident here, has given 125,000 francs to the ministry of marine as prizes for officers and gunners on merchantmen who sink submarines. The money is to be distributed in prizes of 5,000 francs.

ESTIMATES SUM NEEDED TO REBUILD CITIES

J. J. O'Connor in Charge of Relief Work, Issues Statement

Places Amounts Needed for Rebuilding and Relief Work in Mattoon and Charleston at \$500,000—\$150,000 in sight with \$600,000 in Cash Now in Hand.

Mattoon, Ill., May 31.—John J. O'Connor, of Chicago, in charge of relief work here since the tornado of last Saturday, issued a statement today that \$500,000 will be needed for the rebuilding work and relief in Mattoon and Charleston. Of this sum \$150,000 is in sight, with \$60,000 in cash now in hand.

Mr. O'Connor yesterday told the legislative committee which came here on an inspection trip that the situation demanded that they go "the limit." He will accompany a delegation of business men to Springfield on Monday to further place before the authorities the extent of the needs in the stricken cities.

The official list of dead was increased to fifty-seven today by the death of Mrs. Martha Smith, the oldest negro woman in Coles county and possibly in the state. She claimed to be one hundred and twelve years old and was known to be more than a hundred years old. The death list in Charleston remains at 33.

Health conditions are satisfactory according to a report today by Dr. East. The militia in charge of Major Klausner will remain on duty for several days.

Illinois C. To Aid Work.
Urbana, Ill., May 31.—The University of Illinois is to have a leading part in the rebuilding of storm-stricken Mattoon. Six architects are to draw up sixteen standard plans for houses which will range from \$300 to \$1,400. By having three different exteriors for each of these standard plans there will result forty-eight different designs which with various kinds of paint and a variety of surroundings will avoid appearance of duplication and sameness.

The citizens' committee has made a survey of the district in which some five hundred houses have been wholly destroyed. Many of these were in the building and loan association and the result is that many of the 2500 homeless persons are not only penniless but have a debt besides. The plan is briefly, to give a certain amount of money outright and arrange for a loan so that each owner may be enabled to rebuild. It is hoped that the standard plans and wholesale buying will produce great gains in architectural effect and in actual cost and give an opportunity to almost every householder to regain shortly his former status.

PROGRAM DOESN'T CARRY ENDORSEMENT OF KAISER
COPENHAGEN, via London, May 31.—The program of the German majority Socialist delegates to the Stockholm conference, evidently, from the statements of Dr. Eduard David, one of the leading delegates, carried no endorsement by the German government. Dr. David clearly intimated that the action of the delegation is only binding upon its party and that the envoys have no definite pledges or authorizations from the administration at Berlin.

The hopes of the delegates that the German government ultimately will be found amenable to the majority Socialist program of peace without annexations or indemnities are based partly upon the party's strength or indemnities are based partly upon the party's strength and influence in Germany and partly upon the indefinite statements of that master phrase maker, Chancellor Von Bethmann-Hollweg, like his declaration that the government is ready to conclude a peace which will leave no thorns to rankle."

WILL USE GERMAN SHIPS.

Washington, May 31.—In addition to the German commerce raiders, Prince Eitel Friedrich and Kronprinz Wilhelm, the seized German ship Liebenfels and the gunboats Geir and Locksmun will be used by the navy.

For colliers and cargo carriers the following German ships will be used:

Hohenfels, Frieda, Leonhardt, Nicer, Kiel, Rudolph, Humburg, Vogesen, Breslau and Saxonia.

NAME COMMITTEE TO VISIT STORM SECTION

Springfield, Ill., May 31.—Lieutenant Governor Oglesby and Senator Clark today were named by the appropriation committee of the senate as a special committee to visit Charleston, Mattoon and other cities and towns, damaged by Saturday's tornado in order to determine the amount of damage one and the relief necessary. The committee of two will visit the storm district next Monday.

WEATHER INDICATIONS AND TEMPERATURES

Illinois: Partly cloudy in north, rain and cooler in south portion Friday and Friday night. Saturday cloudy to partly cloudy; somewhat warmer in west portion.

Temperatures.
The current, maximum and minimum temperatures as recorded Thursday were:

Helena	62	64	28
San Francisco	62	64	48
Winnipeg	54	56	32

AMERICANS ABROAD MAY BE REGISTERED

**War Department Takes
Up Another Phase of
Draft Registration**

ASKSCROWDER'S OPINION

**Registration Cards Furnished
Every American Embassy,
Legation or Consulate**

APPEALS TO THE PRESS

WASHINGTON, May 31.—While the legal machinery of the government was operating today to stamp out agitation against the draft the war department took up another phase of the matter dealing with the status of Americans now in foreign countries.

Asks Gen. Crowder's Opinion.
Secretary Baker called upon Brigadier General Crowder, judge advocate general and provost marshal general of the army, for an opinion as to the effect of the new law upon Americans of military age residing abroad. The question involves to some degree the specific terms of the extradition treaties between the United States and other countries. Many Americans of military age now abroad have been eager to enroll. Registration cards have been furnished to every American embassy, legation or consulate, and diplomatic and consular officials have been authorized to act as registration agents.

Meantime, the department of justice in proceeding on the theory that the departure from American soil of any citizen subject to the draft is an evasion of the law, it was revealed today that steps already had been taken to prevent such departures, and that attempts at this form of evasion would be met by vigorous measures.

To Back Up Local Officials.
Department officials also made it clear that they would back up to the full extent of their authority the efforts of local officials in the various communities to put a quick end to agitation against the draft. The arrests made during the day throughout the country were in accordance with instructions sent from Washington, directing federal agents everywhere to take prompt legal steps against anyone seeking to influence eligibles to refuse to register. Another aspect of military registration came up during the day when registration officials throughout the country were informed that answers would not be required to the question on the registration cards as to whether the individual claims exemption and on what ground. The department has reached conclusion that no man should be required to claim exemption. There are many who do not care to do so and under the new ruling none will be required to state his position until he is summoned for actual service and comes up before an exemption board.

Appeals to the Press.
General Crowder appealed to the press of the country today to give prominent place daily to an outline of the essential facts in regard to the registration process. The statement from the committee outlines the facts for which publicity of the widest sort is desired as follows:

"Who Must Register.—All male persons (citizens or aliens) born between the sixth day of June, 1885 and the fifth day of June 1896, both dates inclusive except:

"Members of any duly organized force, military or naval, subject to be called, ordered, or drafted into military or naval service of the United States, including all officers and enlisted men of the regular army, regular army reserve, officers reserve corps, enlisted men's reserve corps, national guard and national guard reserve recognized by militia bureau, the navy, the marine corps, coast guard, naval militia, naval reserve corps, marine corps reserve and national naval volunteers recognized by the navy department.

"When.—On Tuesday, June 5, 1917, between 7 a. m. and 9 p. m.

"Where.—In your home precinct.

How to Register.
"How.—Go in person June 5 to the registration place of your home precinct. If you expect to be absent from home June 5 go at once to the clerk of the county where you now happen to be or if in a city of 30,000 or over, to the city clerk and follow his instructions; if sick send a competent friend. The clerk may

COSTLY INVESTIGATIONS.

Senator Sherman is opposed to a food survey and protection bill which carries fourteen million dollars with it. The Illinois senator believes the bill while it has some merit in it, will mean the same old story of swelling the number of federal employees. He thinks rightly too, that war is not the only contributing cause to present high prices. To the uninitiated the bill proposed carrying such enormous expenditures for investigation purposes, seems a great waste of money at a time when the average citizen is already having a hard struggle to make his income and expenditures meet.

THE PUBLIC AND THE FACTS.

If there is more apathy in this country about the war than should be the case it is due largely to the policy of the administration in failing to let the public know all the facts. It is this very policy which has caused some differences between the administration and congress. If the public is kept in touch with the real facts—if they are apprised what the government is doing and proposes to do—they will readily come forward with any sacrifice necessary to make in the cause of democracy and liberty. There is a widespread demand just now for "letting in the light."

MONKEYING WITH CLOCK HANDS

(Montreal Gazette)
In a plebiscite at Halifax on the so-called daylight saving plan, which was in local operation all last summer, it was found that in districts where railway men and workers lived the vote was against repeating the experiment this year, and it will not be repeated. This is in agreement with the theory that the hours of labor generally accepted are those which the convenience and experience of all concerned have shown to be best. When experience indicates that other hours for closing are desirable they will be fixed without monkeying with the clock hands.

GRAIN PRICES DECLINE.

Since the strong intimation that the federal government would have something to say about food prices, the grain markets have been steadily declining. The government intimation is one reason and no doubt another reason is the near approach of harvest time. It has been frequently predicted that a \$2 price for wheat would be in effect at harvest time but the July quotation is already slightly below that figure and those who watch market conditions are now predicting that there will be a still further slump and that \$1.75 or less will be the figures offered farmers when they are ready to dispose of their crops. But even these prices are about double that paid to grain growers at harvest time in 1915.

MONEY FOR GOOD ROADS IS WELL SPENT.

Thru several associations the business men of Springfield are seeking to raise a fund of \$5,000 for grading and oiling the roads approaching that city. The board of supervisors has agreed to duplicate this sum and equal amounts are expected from two townships. Thus if the plan succeeds there will be \$20,000 available for these roads. This sum will be sufficient not only to put the roads into good condition for several miles in each direction from the city, but will also maintain them thruout the year. The Springfield business men evidently realize what a close relationship there is between good road conditions and country patronage. In these days of the automobile the trade territory of every city has been considerably widened and in order to get the full advantage of that increased area the roads must be kept in good condition. The Springfield men are setting a good example for other cities.

THE PICKETING NUISANCE.

The picketing of the White House by members of the national women's party continues and while the people of Washington and the members of congress have become accustomed to seeing these pickets, the annoyance has not been lessened. It is pleasing to note that the National American Suffrage association, with its membership of two million women, is opposed to this picketing plan and states that the suffragists who are doing this picketing do not correctly represent the sentiment of the great body of women voters thruout the country. Even if there had been any excuse for this picketing plan, such momentous changes have come in national affairs since the picketing began that the plan should have long since been abandoned. The minority of suffragists who are behind this picketing movement are doing the cause of suffrage positive injury instead of advancing it as they possibly hoped to do.

BOND BUYING NOT A SACRIFICE.

Thus far in the publicity given about the purchase of liberty loan bonds the people have been urged to buy from patriotic reasons. Not much has been said about the bonds as an investment but as a matter of fact it is no sacrifice for an investor to buy a gilt edged bond guaranteed to pay 3 1/2 per cent net and free from all taxation. It is not at all surprising that other government bonds paying much less returns have recently slumped on the market. The liberty bond issue therefore appeals not only from a patriotic standpoint but from a business standpoint to the investor, who is looking for a fair return and absolutely good security. An allotment of \$500,000 is said to have been made by the federal government to Morgan county and so investors here will have the opportunity of buying bonds to that extent.

In the last great English loan one person in eleven subscribed and in the last German loan subscriptions were taken by one in every thirteen persons. It is interesting to note in this connection that the estimated wealth of America is 2 3/4 times as much as that of Great Britain and 3 times the wealth of Germany.

A WORTH WHILE EXPERIMENT.

A current magazine points to an Iowa experiment which has brought excellent results. The legislature in 1915 passed a law requiring the medical staff of the University of Iowa to give its services free to all indigent children who were suffering from deformities which modern medical science could remedy. This law provides that the district or superior court, on the submission of competent evidence, can commit any child so afflicted to the University Hospital, where it remains until the cure is complete.

As the University is a state institution, and as the salaries of its professors are paid by the state, these surgeons receive no compensation for treating deformed children, although the state pays the hospital for the actual care of each child. The results, as recently reported, abundantly justify this experiment. In two years the hospital has received 877 children, suffering from all manner of deformities and deformities.

If such a law were in effect in Illinois there are a number of children in Jacksonville who might be permanently benefitted and no doubt the same is true of every city in the state.

EDISON'S REASONS FOR BUYING BONDS

Here is the appeal of Thomas Edison for the Liberty bond issue. "The spirit of 1917 in America should be a spirit of service," Edison declared. "From the highest to the lowest, the uppermost idea should be how we can serve our common country. Some of us are going to make the supreme sacrifice of our lives on the battlefields of France and on the high seas. Some of us are working night and day to solve the scientific questions involved in conquering our German foes. Some of us are expected to do our bit on the farm or in the factory. There is a niche for almost all of us if we will but look for it with patriotic eyes.

"Pay what it's worth to you to be an American citizen. Figure it cold-bloodedly—if you are built that way. Consider what this country has meant to you; what it will mean to your children and to humanity in future generations. Then when you have thought over these things, take pen in hand and do your bit for the liberty loan.

"To buy a bond is to pay the first premium on an insurance policy against the death of democracy, against brutal Prussian militarism."

FOR COUNTRY CALLS
Now's no time for foolish fears.
Hush your sobs and dry your tears.
Be the strong ones of the years.
For Country calls.

Now's no time for drooping lip.
Thy soul sail on that ship.
Bid him God-speed on his trip.
For Country calls.

Now's no time for coward's tricks.
Proudly then your name affix.
Just like boys of '76.
For Country calls.

Now's no time to sling abuse.
Or be acting like a goose.
Put your strength to some good use.
For Country calls.

Now's no time for foolish play.
Just to trifle time away.
Help the Red Cross right today.
For Country calls.

IMPROVING RAILROAD METHODS
The records which the railroads of the U. S. have been making the past year indicate that the statement once made by Louis D. Brandeis, now justice of the U. S. supreme court, that he "could save the railroads a million dollars a day" if allowed a free hand, was not much out of place. The Brandeis statement was made in connection with the application of some of the railroads for increased freights.

That hearing was the beginning of some reforms, one of which has been the establishment of a system to load freight cars more heavily than was formerly true. The twelve shipping companies of the U. S. steel corporation by this plan of heavier loading during the past year saved 292,848 car loads. Certain other reforms came to pass with reference to the handling of empties, and plans were worked out whereby cars were seldom handled as empties even if the freight carried was not of the particular class for which the car had been constructed.

In the latter days since all the railroads of the country have voluntarily come under the control of a small committee of railway presidents the advantages of co-operative working are seen. By consolidating equipment and by abolishing certain trains which really constituted an expense to the railroads instead of a profit, some vast savings are

being made by the railroads for their stockholders and incidentally for the public. In the rivalry between roads almost paralleling each other millions upon millions of dollars are wasted. Mr. Brandeis' statement sounded somewhat arrogant at the time it was made but nevertheless various reforms he advocated have been adopted and are benefitting the public today.

Rippling Rhymes By WALT MASON

Spring Mud

Spring brings the wet and helpful rains, the cloudburst and the flood; and then the broad and fertile plains are plastered thick with mud. We journey forth from our abodes, in wagon, boat or car, and we get stuck in muddy roads, which break the human heart. We spend about ten million bucks, each year, to fix the pike, and in the springtime only ducks along the same can hike. The farmer stays away from town and doesn't blow his seeds, so we find commerce sagging down in all our western grades. The autos are no longer run, dead are their wonted fires; so worthy dealers take no more for gasoline or tires. All trade in grim stagnation stands; 'tis this way everywhere, and merchant princes wring their hands and rend their robes and swear. The roads are just long streaks of mud, a warning and a fright, and with the old accustomed thud the mules sink out of sight. We spend some forty million bones, each year, to fix the pike; go forth, I say, in thunder tones, and see what they are like. Go forth when tides are ebbing low, survey the dismal scene; and if you're wise, when forth you go, you'll use a submarine.

THIS DATE IN HISTORY

June 1, 1848—Rock Island Senatorial District. The Senatorial convention which assembled at Rock Island on June 1st, 1848, nominated R. H. Spicer, Esq., of Mercer County, as the democratic candidate for Senator.

MATRIMONIAL

Craig-Darnell
John Craig and Miss Amy Darnell both of this city were united in marriage at the home of the bride, 650 South West street Thursday evening at 8 o'clock. The ceremony was said by the Rev. E. M. Harris and was witnessed by only a few intimate relatives and friends. The couple are highly respected colored people of the community, the groom having been employed for a number of years by J. W. Woods Transfer company. They will make their home at 650 South West street.

Hills-Perkins.
The marriage of George Leonard Hills and Miss Ona May Perkins, both of Franklin, was solemnized Wednesday night at the home of the bride's parents, Dr. and Mrs. J. B. Perkins. The ceremony was said by Rev. W. E. Keenan.

The bride and groom are graduates of the Franklin high school and are active members of the M. E. church. They are withal very estimable young people who have the high esteem of the whole Franklin community.

Mr. Hills is a son of Mr. and Mrs. J. L. Hills and is associated with his father in business under the firm name of J. L. Hills & Co. His bride has for several terms been a teacher in the primary department of the Franklin schools and successful in her work. Both the Hills and Perkins families are well and favorably known in the southern part of Morgan county. The young people are to begin house keeping at once in a home that has been made ready for them.

The wedding company included only the near relatives, the parents of the bride and groom, Mr. and Mrs. R. S. Colpitts, of Philadelphia, grandparents of Mrs. Hills and George J. Hills of Lynnville, grandfather of the groom.

FUNERALS

Morris.
Funeral services for Mrs. Elva Morris were held from the residence 814 North Main street, Thursday afternoon at 2:30 o'clock in charge of the Rev. Ernest L. Fletcher, pastor of Centenary church. Hymns were sung by Mrs. T. H. Rapp and Mrs. A. C. Baldwin. The flowers were cared for by Miss Carrie Johnson and Mrs. Lena Hedrick. Burial was in Jacksonville cemetery, the hearse being Lewis Meyer, Chris Howard, Philip Briggs, Harold Elliott, Leonard Elliott and Edward Harlow.

WITH THE SICK

William Hainline resumed his work as operator and ticket agent at the C. & A. station Thursday night after a brief illness at his home on Spaulding place.

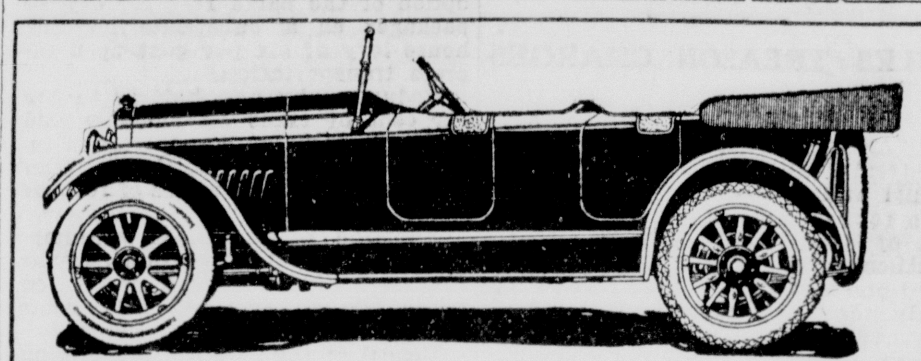

HELD PUBLIC SALE

T. E. and J. H. Laurie held a public sale Thursday afternoon at the home of the former on Brooklyn avenue. Jed Cox was the auctioneer. A comparatively small amount of property was sold and the prices were fair. Jed Cox bought a team of aged mules at \$110 and Ed Dowling a team of horses at \$142. A sow and pigs were sold to Edward Patterson for \$72.25. March and April pigs sold at prices ranging from \$5 to \$7.20 per head. Two wagons sold brought an average price of \$50.

Miss Mae Martin of Litchberry is sending a few days with friends in the city.

MANY ATTEND FUNERAL OF MRS. ROBERT WOODALL

Impressive Services Held Thursday In Charge of Winchester Eastern Star—Graduation Exercises To-night—Scott County Boy Will Sail Soon for France.

Winchester, Ill., May 31.—A large concourse of sorrowing friends and relatives gathered Thursday afternoon at the Christian church to attend the funeral services of Mrs. Robert Woodall. The Rev. G. E. Prewitt, pastor of the church was in charge and the Eastern Star, of which Mrs. Woodall was a faithful member, furnished the music and conducted a service at the grave. A vocal number was given at the church service by S. G. Smith. The profusion of beautiful flowers were cared for by Mrs. William Haisley, Mrs. Earl Welch, Mrs. Warren Kelley, Mrs. Anna Amelia Heronimus, P. D. Smith, Dale Owens and Warren Kelly. Among the presenters from away were Mrs. George Collinger, Mrs. John H. Davis, Miss Rhoda Woodall, Jacksonville; Miss Minnie Collins, Riggsport; Mrs. Fred Barclay, Sullivan, Mo.; Mr. and Mrs. George W. Hill, Mrs. Stewart and Mrs. George Bowman, Alsey; George Hooper, Mrs. Eliza Hoskins, Mr. and Mrs. George Hooper, Jr., and little daughter, Mrs. William Clark, Canton. THE COMMENCEMENT PROGRAM The Winchester high school commencement exercises will be held Friday night at 8 o'clock in Winchester M. E. church with the Rev. M. L. Pontius of Jacksonville as the address. The order of the program: March, "Stars and Stripes Forever," Sousa; Winchester orchestra. Address, "The Light Cavalry," Von Simpe; The orchestra. The White Buttricks, Lang. "Mighty Lak a Rose," Nevins-High school glee club. Vocal Solo, "Break O' Day," Sanderson—Miss Frances Gotsch. Address, "The Challenge of the New Age," Rev. M. L. Pontius. Grafe-The Orchestra. Vocal solo, "Sunlight," Ware—Miss Katherine Bregle. "Welcome to Spring," Rubenstein. "Who is Sylvia?" Schubert. "Carmen," H. Lane Wilson—High school chorus and orchestra. The diplomas will be presented by W. D. Gibbs, president of the board of education.

THE OWINGS FUNERAL. Brief funeral services for Edwin Owings were held at the family home Wednesday afternoon at 4 o'clock in the presence of a large gathering. The Rev. C. W. Cusley read passages from scripture and Rev. G. E. Prewitt made a brief but comforting talk. There were many beautiful floral tributes and these were cared for by friends. Burial was made in Winchester cemetery. The bearers were Earl Owings, Fred and Dale Owings, Leo Murphy, Paul Nelson and William Haisley.

PERSONAL MENTION. Carl Smith arrived Thursday from Normal, Ill., for a brief visit with his parents. Mr. Smith joined a Red Cross unit recently and expects to leave soon for France.

Mrs. J. B. Hendricks and daughter Dorothy are here to attend commencement exercises.

Miss Frances Wallace came from Jacksonville Thursday to spend the summer at her home.

Will Teach in Meredosia. Miss Mable Peterson has accepted a position as teacher in the schools of Meredosia. She will have charge of the fifth and sixth grades at a salary of sixty dollars per month.

RELIEF FUND FOR STORM SUFFERERS IS BEGUN

Mayor Rodgers Makes Initial Subscription of \$100—Lists Can Be Found at All Morgan County Banks—Appeal Is Urgent

As mentioned in another column, an effort is to be made at once to raise a cash relief fund for the stricken people of Mattoon, Charleston and Modesto. Urgent appeals have been sent out from these cities for funds and money is needed to prevent actual suffering and to so help these people that they can help themselves.

Mayor Rodgers stated last night that he would make the first Jacksonville contribution to the fund and will give \$100. Contributions may be made at any bank in Morgan county and it is earnestly desired that the people of this county, fortunate in escaping the awful storm, come forward at this time and aid in the relief work. It is necessary that contributions be made promptly and in cash.

Lee Skinner left Thursday morning for Chicago to take his position in the Chicago postal system. Miss Clara Russell and Miss Verne Smith have gone to St. Louis for a visit of a few days.

HAVE HEARD NOTHING OF CHANGES

In line with the proposed re-entrainment plans of railroads in discontinuing certain passenger trains, is a rumor that the Washash accommodation thru Jacksonville at 10:20 a. m. and 6:05 p. m. will be taken off. The local agent said last night that so far no official notice had been received of a change in train service. It was said in connection with this change that the Washash flyer would carry passengers and make stops at Griggsville and Barry. It also contemplated a change in the Washash east bound train due here 1:45 p. m. which would arrive an hour earlier.

WELL ATTENDED SERVICES AT LYNNVILLE CHURCH

The Rev. James Scofield gave an interesting address to women Thursday afternoon at Lynnville Christian church. In the evening he spoke to a large gathering of men, using as his subject, "The Master Key of Power." Tonight at 8 o'clock there will be a mass meeting and preparations have been made for a large attendance. Mr. Scofield will speak from the topic, "Dead Sure." Special numbers will be given by a male quartet.

PRESIDENT PURCHASES LIBERTY LOAN BOND

Leading Canadian Railroad Men and Bankers Formally Notify Treasury of Subscriptions

Washington, May 31.—President Wilson today joined the ranks of participants in the liberty loan by subscribing for a \$10,000 bond. Writing to Secretary McAdoo the president said:

"May I not send you personally my subscription to the liberty loan which I make with great satisfaction and with the wish that it might be a great deal larger?"

Secretary McAdoo announced the itinerary for his second speaking tour in support of the loan. He will start in New York Monday and before returning to Washington a week later will visit Boston, Detroit, St. Louis, New Orleans, Birmingham, Chattanooga, Louisville, Cincinnati and Pittsburgh.

Leading Canadian railroad men and bankers were among those who notified the treasury formally today

of liberty loan subscriptions. An appeal to the 173,561 enlisted men, officers and civil employees of the navy to buy liberty loan bonds was issued by Secretary Daniels.

PROBATE COURT.

In the estate of John R. Bonds, the inventory was approved. In the estate of Charles Nickel, the order to sell personal property was approved and same order was made with reference to appraisal bill and supplemental inventory.

FUNERAL NOTICE.

Funeral services will be held for Mrs. Catherine Walker from Salem Lutheran church Sunday afternoon at 3 o'clock in charge of the Rev. J. G. Kuppler, with burial in Jacksonville cemetery.

A TEXAS WONDER

The Texas Wonder cures kidney and bladder troubles, diabetes, rheumatism and irregularities of the kidneys. It is sold in both men and women. Regularizes bladder trouble in children. It is not sold by your druggist, will be sent by mail on receipt of \$3.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for sworn testimonials. Dr. S. W. Hall, 223 Olive St., St. Louis, Mo. Sold by druggists.—(A-4.)

GOOD ADVICE

A Jacksonville Citizen Gives Information of Priceless Value.

When you suffer from backache, Headaches, dizziness, nervousness, Feel weak, languid, depressed, Have annoying urinary disorders; Do you know what to do? Some Jacksonville people do. Read the statement that follows. It's from a Jacksonville woman. Testimony that can be investigated. Mrs. Doyle, 718 N. East St., Jacksonville, says: "I have used Doan's Kidney Pills for general weakness of my kidneys and they have helped me a whole lot. I recommend Doan's Kidney Pills very highly to others who may need such a medicine." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Doyle had. Foster-Milburn Co., Props., Buffalo, N. Y.

WOMEN OF ILLINOIS.
WOMEN EVERYWHERE ENDORSE THIS "FAVORITE."

Mt. Vernon, Ill.—"When I was very poorly, I doctored all summer with a physician and paid him fifty dollars for advice and medicine. I did not get fifty cents' worth of benefit. The following spring, being overworked, tired out and worn out, and learning of Dr. Pierce's Favorite Prescription, I tried one bottle. It helped me so much that I got three more. I kept gaining in health and after four months I was so well that I took no medicine for two years."

"If women in my condition will use Dr. Pierce's Favorite Prescription they will get the strength they need, with little expense."—Mrs. J. L. FAULKNER, 1401 West Broadway, Mt. Vernon, Ill.

Thousands of women in Illinois who are now blessed with robust health cannot understand why thousands of other women continue to worry and suffer from ailments peculiar to women when they can obtain for a trifling sum Dr. Pierce's Favorite Prescription, which will surely and quickly banish all pain, distress and misery and restore the womanly functions to perfect health.

Young mothers who preserve the charms of face and figure in spite of an increasing family and the care of growing children are always to be envied. Doctor Pierce's Favorite Prescription gives the strength and health upon which happy motherhood depends. It practically does away with the pains of maternity. It enables the mother to nourish the infant life depending on her, and enjoy the hourly happiness of watching the development of a perfectly healthy child.

COMMENCEMENT EVENTS AT WOMAN'S COLLEGE

Art Exhibit Opens Saturday—Display in Home Economics Department Makes Timely Suggestions—Monday a Busy Day—Baccalaureate and Commencement Addresses

Considerable interest attaches to the art exhibition at the Woman's college which will open at 10 o'clock Saturday morning. Visitors will be received until 4 o'clock in the afternoon and again on Monday. The exhibition of posters will be especially interesting as a number of young women have specialized this year in this particular branch of art.

In these days when so much is said about home economics the exhibition of the department of home economics which will be held Saturday afternoon from 2 o'clock until 5:30 will be of peculiar interest. Miss Walker, the head of the department, has devoted a great deal of time and thought to meeting present day economic problems and so the exhibition will be of practical value now. These women who desire to get new ideas in household economics and who require additional information about the relative values of foods should see this display. In the household arts department there will be an interesting exhibit Saturday afternoon which will continue until 12:30 Monday noon.

The Academy Commencement. Graduation exercises for the Woman's College academy class will be held in Music hall this evening at 8 o'clock and diplomas will be given a class of thirteen. The graduates are Misses Ruth Wilson, Frances Wilkinson, Martha Mussman, Edna Barnes, Grace Davis, Hester Nelson, Beth Nelson, Helen Thowbridge, Jane Parkison, Ellen Woods, Lillian Bush, Jessie Wall and Louise Fletcher. The class will take their places on the platform to a march played by Mr. Stearns, and the following program will be given:

Quartet number—Misses Wilson, Wall, Davis and Fletcher.
Essay, "The Life of Clara Bartlett"—Miss Hester Nelson.
Solo, "The Jewel Song"—Miss Jessie Wall.

Essay, "The Life of Dr. Anna Howard Shaw"—Miss Frances Wilkinson.
Vocal solo—Miss Grace Davis.
Essay, "The Life of Jane Addams"—Miss Louise Fletcher.

Chorus number, "The Sing Song"—Students of the academy.
Recital in Expression.

Of much interest will be the recital in expression to be given at Music hall Saturday night at 8 o'clock. Numbers will be given by Miss Anne Fletcher, Miss Marceline Armstrong, Miss Louise Reed and Miss Hazel Ingram. These young women have shown excellent progress during the past year in their study with Miss Constance, head of the department. All have appeared in recital before and have demonstrated their ability as speakers and readers.

The final chapel exercises of the year were held Thursday morning at 10 o'clock, when gifts from friends to the college, amounting to over \$5,000 were announced and great enthusiasm prevailed among the students. The occasion was marked by the presentation of prizes in the Wesley Mathers contest for the delivery of original essays and declamations. The athletic honors were awarded and announcement made of the gifts from the Greetings board and the dramatic club. Rev. Merle N. English, who is to deliver the baccalaureate sermon Sunday morning at Grace church, will reach the city Saturday evening and will be accompanied by Mrs. English.

The Y. W. C. A. anniversary service will be held in the students' social room Sunday evening at 6 o'clock.

A Busy Day Monday. Class day exercises will be held on the college campus Monday morning at 9:30 o'clock if the weather is favorable and otherwise in Music hall. The annual meeting of trustees and visitors is scheduled for 10:30 o'clock Monday morning and the college sing will occur at 6 o'clock in the evening on the campus. Alumni and former students are planning reunions for Monday afternoon at 3 o'clock and the society receptions will occur at 4:30. The exercises of the day will be concluded with the college of music recital at 8 o'clock, when the program is to be given by pupils who are to receive diplomas and certificates.

Rev. Harris Franklin Hall, Ph. D., of Garrett Biblical Institute, will deliver the address to the graduates at the commencement exercises which will be held Tuesday morning at 9:30 o'clock. Friends of the college are cordially invited to attend all of these events.

Why Students Attend College. An interesting investigation was conducted recently by Dr. Harker on the reason why students have selected the Illinois Woman's college for their course of study.

The questions were asked 182 students and the replies in order of frequency were "High standard of the college," "Influence of former students," "convenience of location," "helpful religious atmosphere of the college life." These replies comprised 86 per cent of those answering. Fourteen per cent gave scattering reasons.

These facts, together with investigations conducted in thirty-three colleges and universities of the state, were embodied in a statistical survey of Illinois colleges, published in Chicago by The Council of Church Boards of Education. In this volume occur several graphic charts of college growth. The Woman's College now stands eleventh in point of attendance and value of property, such rank having been gained in the past eight years. Illinois Woman's college is among the highest third of the state schools in point of standing.

GRADUATION RECITAL BY CONSERVATORY STUDENTS

Program of High Degree of Merit Rendered Thursday Evening at Northminster Church—Three Receive Diplomas and Six Teachers' Certificates.

Last evening the annual graduation exercises of the Conservatory took place in Northminster church. A large audience was gathered to hear the musical numbers, piano, voice and violin, offered by the candidates for Teacher's Certificate of Diploma. There were eight numbers in all, six for piano, one for voice and one for violin. Miss Sarah Katherine Frankenburg who was a candidate for Diploma in voice, did not appear on account of her recent bereavement.

The opening of the program fell to Miss Sarah Lucille Allison, who played the Mozart Fantasy in C minor with good tone and sure technique. She seems particularly well suited to the classic style. Second came Miss Alma Leak, who gave two movements of the Beethoven F minor Sonata. She evidently has an ear for phrasing and nuance, and brings out her melodic well. The third number was for violin, the G minor Tartin Sonata, played by Miss Hazel Ashbaugh, and showed her excellent command of the bow and her pleasing tone quality. Miss Verdie Anderson appeared next, offering the beautiful G minor Concerto of Mendelssohn for piano. She has an excellent stage manner and performed with composure and sureness, bringing out some lovely passages.

Another Mendelssohn concerto, the D minor, was played by Miss Jane Nibbe, who brought to her task genuine musical enthusiasm and a good understanding of the melodic meaning of this pleasing work. The only voice number, given by Miss Nellie Self, was next in order, and her Aria from the Queen of Sheba made an excellent impression on her hearers. Miss Self has a lovely voice, and has evidently studied well. After her number came the F minor Concerto of Chopin, played by Miss Ellen McCurley in most creditable fashion. Her technique is clean and brilliant, yet her tone is never harsh, and she is evidently possessed of a very musical nature. The final number of the program was the E minor Concerto of Rubinstein, played surprisingly well by Miss Bertha Virginia Gordon. This young lady is to be congratulated on her control of tone gradation as well as on her unusual power in octave and chord passages. Her interpretation gave genuine pleasure.

After the completion of the musical program President Hammett gave out the Teacher's Certificates to the following: Miss Sarah Lucille Allison, piano; Miss Verdie Anderson, piano; Miss Hazel Ashbaugh, violin; Miss Alma Leak, piano and Miss Ellen McCurley, piano. The Diplomas, to be awarded to Misses Sarah Katherine Frankenburg, voice; Bertha Virginia Gordon, piano and Nellie Self, voice, will be presented to them on commencement day, June 12th.

FOR COMMENCEMENT
there is no gift that carries with it the evidence of good taste more than a box of fine candy. Get it today at MERRIGAN'S.

MORTUARY
DeFraties.
David M. DeFraties died at his home one and one half miles northwest of the city Thursday morning at 8:20 o'clock. Death was caused by apoplexy. Deceased was the son of Emanuel and Justina DeFraties and was born in this county November 1, 1881 and had spent his entire life here. He was a young man of quiet disposition and devoted to his mother. Besides his mother he is survived by the following brothers and sisters, Frank and Thomas DeFraties and Mrs. Elizabeth Vidra of Jacksonville, George DeFraties of Peoria, Mrs. Pauline McLaughlin of Springfield, Mrs. Evaline Harrison of Princeton, Mrs. Nettie Smith of Virginia. His father died sixteen years ago. Funeral arrangements will be announced later.

NOTICE
The Journal was printed in unusual form yesterday morning and again this morning because of the shortage of the print paper supply. The receipt of a car of print paper shipped from the east to the Journal Company has been delayed. Information received yesterday afternoon was that the car had reached Chicago and its arrival in Jacksonville today is anticipated.

REAL ESTATE TRANSFERS.
Edgar F. Spires, to Frances M. Spires, north half east half south east quarter 8-13-9. \$1.

H. E. Barrett to Pearl Frost, west half northeast quarter 31-14-10. \$1.
Pearl Frost to H. E. Barrett, quit claim deed same tract, \$1.

FUNERAL NOTICE
Funeral services for Mrs. Norman Campbell will be conducted from the residence, one and one half miles west of Merritt Saturday afternoon June 2, at 2:30 o'clock in charge of the Rev. George E. Haas. Burial will be in Gillham cemetery.

Mr. and Mrs. Ralph Hembrough of Atchinson, Kans., are visiting Mr. Hembrough's uncle, W. H. Hembrough of South Jacksonville.

Miss Margaret Welch of St. Louis arrived last evening for an extended visit in Jacksonville, where she will be a guest at the home of her aunt.

MARTIN VOGEL DIES IN NEW YORK CITY

Former Resident Will Be Brought Here for Interment—Jacksonville Business Man for Many Years

John G. Reynolds received a dispatch yesterday morning from Earl Vogel, New York City, stating that his father, Martin Vogel, had died and asking Mr. Reynolds to meet the Wabash train Saturday morning at 7:15 when the remains will arrive and be taken to Diamond Grove cemetery for burial. Mr. Vogel asked that H. H. Bancroft, Dr. R. H. Buckthorn, A. M. Masters, J. S. Buckler, Charles Blackett and Edward M. Dunlap be secured as bearers.

The parents of Mr. Vogel were born in Germany but he was born in Texas in 1842. When a young man he went to Cincinnati, Ohio, to work at his trade of carriage maker and in 1861 enlisted in the 28th Indiana Infantry and participated in a number of battles and was wounded a number of times. He was in that awful prison hell, Andersonville several months and there became acquainted with Capt. Jas. M. Swales of this city. He served 37 months and was honorably discharged after which he returned to Indiana and came to this city in 1867.

Mr. Vogel worked for a time for Richards & Co. and later formed a partnership with M. Hellenthal & M. McLaughlin the firm being styled Hellenthal, Vogel & Co. It was afterward dissolved and Mr. Vogel carried on the business himself in a building of his own on North Sandy street. He gave up the business afterward and some years ago removed to New York where his son Earl is a practicing attorney.

Mr. Vogel was married to Miss Alice DonCarlos, daughter of Rev. Mr. DonCarlos, a well known Methodist minister. They were the father of one son, Earl, who graduated from Illinois college in 1897 and subsequently studied law and opened an office at 15 Wall street, New York City.

Mr. Vogel was a member of Hini Lodge No. 4 I. O. O. F., Harmony Lodge No. 1, A. F. & A. Masons; Jacksonville Chapter No. 3, Royal Arch Masons and Hospitaller Commandery, No. 31, Knights Templar. He was a man always honorable in business and much respected for his upright character.

JACKSONVILLE CHAPTER NO. 3
R. A. M., will hold a special convocation this afternoon at 3 o'clock. Work in R. A. Supper at 6 o'clock followed by work and refreshments. Visiting companions welcome.
E. C. Ramsdell, E. H. P., John R. Phillips, Sec'y.

**SLOW WORK GETTING
JURY IN WOOLERY CASE**

Night Session of Court Planned but Defendant Was Too Ill to be Present

In the circuit court Thursday the time was taken in the effort to secure a jury to try Wool Woolery, who is charged with the murder of "Treetops" McDonald. In addition to exhausting the regular panel more than sixty other veniremen were examined. It was the intention to hold a night session in the hope of completing the jury but because of the illness of the defendant court was adjourned until this morning at 9 o'clock. The eight jurors who have been secured are Earl Landers, R. L. Bodwell, Charles McDonald, H. J. Stewart, F. G. Timm, Garfield Rogers, Robert Hughes and William Smith.

The facts seem to be that Woolery, who was in good physical condition when he went to jail a year ago, has since contracted tuberculosis. Recently he has had a number of hemorrhages and it was the statement of his physician that he was not able to appear in court last night.

Why not get 6 pairs of those guaranteed socks for 75c at Tomlinson's.

MAY WEATHER RECORDS.
May, according to the records kept by G. H. Hall, volunteer weather observer, has been about the coldest on record. The mean maximum temperature was 63.2 and the mean minimum temperature 44.4. Thus the mean temperature for the month has been 53.8, which is 7.3 degrees below normal. The total precipitation for the month was 2.95 figures which are 2.32 below normal. There have been but nine clear days out of the whole thirty one. Ten were partly cloudy and twelve were cloudy throughout.

NEW AUDITOR HERE.
W. D. Cole of Chicago is in the city to take the position of auditor for the Jacksonville Railway & Light Co., made vacant by the resignation of P. E. Newell. Mr. Cole has been employed by the public utility company of Chicago and comes to the new place highly recommended. Mr. Newell resigned to take a position with the McCarthy-Gebert Co.

AT C. B. & Q. STATION.
V. E. McElhanon recently took the position of second trick operator at the C. B. & Q. station here. Joseph Evans had the place temporarily after the transfer of T. H. Agnew. J. K. Higgins continues with the first trick and E. J. Christopher with the third trick operator's position.

OVERCOME BY GAS.
Howard Whitaker, an employee of the Jacksonville Railway & Light Co., was overcome by gas while at work on one of the mains yesterday afternoon. He was taken to Passavant hospital where the company physician, Dr. Carl E. Black attended him. Last night the indications were for prompt recovery.

H. M. Chean and J. Dorwart of Paris, Ill., were numbered among the business visitors in the city yesterday.

Harold Perbix of Markham was in the city yesterday. He has recently returned from the state university at Urbana where he has been a student.

Mullenix & Hamilton have an attractive sign in their front window in the shape of a lot of toy balloons caged by a twine affair several feet in height and diameter and kept in motion by an electric fan underneath.

James T. Brown of Washington, D. C., is visiting his parents, Mr. and Mrs. James H. Brown of Anna street. The young man has been attending school in the east and has completed his course and is now employed there and is doing well.

William Lindsay of the north part of the county was a caller in the city yesterday. He says the corn in his neighborhood is pretty much planted though there is some wet bottom land not yet seeded. In general the outlook is encouraging.

W. F. Hoelscher of the force at Tomlinson's clothing store spent Wednesday with his wife and children at the home of Mrs. Hoelscher's parents, Mr. and Mrs. William Rhea of Beardstown. Mr. Hoelscher says crops are generally looking well and he saw corn that had been plowed once and many more fields in good condition.

Lieut. Gardner Wood writes his parents, Mr. and Mrs. Benjamin Wood, that he has been ordered with a portion of the command in his special charge to some station in Virginia. He has been for some time at Plattsburg, New York. He doesn't know to what place he will be sent or what the exact nature of his duties will be.

U. S. PLANS TO ORGANIZE LABOR FOR THE FARMS

Movement Started In Forty States With the Purpose of Increasing Crop Production.

Washington, D. C., May 31.—Under the government plan for the organization of farm labor, the details of which were announced by the U. S. Department of Agriculture today, provision is made for nation-wide co-operation in the solution of the farm help problem. The work of organization already has been started in about 40 states, and it is expected that eventually every community in the United States will be reached. It is believed that the resultant utilization of emergency labor will begin to have an appreciable effect on the farm labor situation before the season has far advanced. Meanwhile, the immediate and acute problem of supplying labor for the harvest, now beginning in the southwest, is being handled, so far as the United States government's services are concerned, through the existing employment service of the U. S. department of labor, which will continue to handle such problems of mass mobilization under the new plan as it has in the past.

Federal and State Co-operation.
The plan is based on close co-operation on the part of the U. S. department of agriculture and the U. S. department of labor with state committees on national defense charged with labor matters, with the state agricultural colleges, with the county agents, and with county and local or township labor committees or representatives to be established in every locality. The department of agriculture will represent the federal authorities in determining farm labor needs and in assisting in organizing all available farm labor in the rural districts. The U. S. department of labor will devote its attention to organizing labor in urban communities and industrial regions, and will co-operate with the farm labor forces where necessary by obtaining extra labor from the populous centers.

The plan provides for strictly local handling of all labor problems that can be adjusted locally. The fundamental principle of the organization is the "community man" who, with the assistance of such committees as he may appoint, canvasses his own neighborhood, finds out what farmers need help, and what men are available for supplying the local need and effects such adjustments as can be made locally. If, after all local adjustments have been made, there remains either a deficit or a surplus of labor, he reports to the "county man," whose business it is to effect adjustment between the several communities in his county. The county man, in turn, reports any deficit or surplus to the "state man," who canvasses the situation for the state as a whole and reports to the department of agriculture, which, in close co-operation with the department of labor, is charged with the distribution of mobile labor for the country as a whole.

Thus each unit in the system acts as a clearing house for its own territory, reporting to the units higher up only when it needs help or has help to offer. The plan provides that supplemental reports shall be submitted by each community man whenever changes in the local labor situation make desirable further adjustments that can not be met with the material at hand, or when a surplus of labor develops which he can not use.

A great many retired farmers, of whom there are 700,000 in the country, may be available for emergency service under this plan of farm labor mobilization. The plans contemplate also the drawing of emergency labor from the cities under the immediate direction of the Department of Labor, the effective utilization of college students and school boys, and, if necessary, the assignment of volunteer women and girls to rural tasks connected particularly with feeding and caring for harvest hands or other extra labor, or with farm canning or drying of surplus perishable products. In other words, the plan contemplates supplying assistance not merely for field operations, but to farm women during their season of heaviest domestic duties.

Straw hats, \$1.00 to \$5.00. See our line. T. M. Tomlinson.

FIRE RECORD FOR MAY.

Only six calls were responded to by the fire department during the month of May which is quite a contrast compared to the first two months of the year. The total value of property involved was \$27,900. Total amount of insurance, \$25,600. Total loss on buildings and contents \$3,443. Total insurance loss, \$2,243. The fires, date, location and cause follow:

May 11, 3 p. m., 1235 W. College avenue, John G. Reynolds, defective wiring.

May 12, 3 p. m., 912 W. Railroad street, John Troy, roof fire.

May 15, 11 a. m., 287 N. Sandusky street, Wm. J. Brady, roof fire.

May 18, 9:30 a. m., 139 Dunlap street, Robert McFarland, spark from stove set house on fire.

May 19, 10 a. m., 52 N. Side Square, Schmalz bakery.

May 19, 8:15 p. m., 297 W. College street, Thomas Waggoner, barn fire.

"Kie-Yie-Yie! Get Me 'Gets-It' Quick!"

2 Drops Make Corn "Fall" Off!

"I've joined the Never-Again Club. Never again will I use anything for corns but 'Gets-It'. Put 2 drops of 'Gets-It' on, and from that second the corn begins to shrivel.

"Oh, Don't Touch It! It's So Sore!" I use "Gets-It" and it will never be sore!

Instead of swelling up like a little white sponge. Then it loosens from your foot—and, glory hallelujah! the corn comes off as though you'd taken a glove off your hand!"

Yes, "Gets-It" is the corn discoverer of the age. More "Gets-It" is sold by many times than any other corn remedy in existence. Try it and you'll know the reason why. It takes two seconds to apply it, and it dries at once. That's all. Don't experiment—follow the experience of millions and use "Gets-It."

"Gets-It" is sold everywhere. 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Jacksonville and recommended as the world's best corn remedy by Armstrong's drug store, Coover & Shreve and J. A. Obermeyer.

YOU ILLINOIS FARMERS

know that good corn ground is worth money. Read what our experts say of Southern Louisiana. David Rankin, of Tarkio, Mo., said:

"The broadcast corn that I saw is the most wonderful crop considering its method of sowing, that I ever inspected and I have inspected corn all over the world."

Eugene Funk, pres. of Nat'l Corn Growers' Ass'n, says: "An average corn crop in the Delta should average 100 bushels."

Ohio State chemist says: "Enough nitrogen to grow 1000 crops of corn." Join the excursion this week and see May corn higher than your head.

Cohen &

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to bleach the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two lemons into a bottle of orchard white, shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle when this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it helps to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.—Adv.

DRAINAGE DISTRICT WORK IN PROGRESS

Jacksonville Engineering Company Has Men Busy in Territory Adjacent to Both Mississippi and Illinois Rivers

The Jacksonville Engineering company at the present time has a number of drainage contracts under way in the Mississippi and Illinois river bottoms. The firm has just finished the reclamation of the Atchafalaya Creek drainage district of the St. Louis drainage district and the preliminary surveys have been made.

It is expected to begin preliminary surveys on the Pigeon Creek drainage district within a few days. Both of these districts are in the Mississippi river bottom in Pike county, Illinois, and comprise about three or four thousand acres each.

Plans have been submitted by the company for an electrically driven pumping station in the Kelly Lake levee and drainage district in Schuyler county. The letting will be held today at Rushville for the plant. The plans call for a reinforced concrete building. The equipment will be two 20 inch centrifugal pumps and two 100 horse power motors. The contract for the ditch and levee has been let to M. J. O'Meara and Sons of Colton, Ill. This district will drain about 1,000 acres.

Work has also been commenced on enlarging the Crooked Creek levee and drainage district near Beardstown. This work has been let to R. H. and G. A. McWilliams of Chicago. The work is being done under the supervision of the Jacksonville Engineering company and the improvement will cost about \$25,000.

WHITE HALL TO HAVE REGISTRATION PARADE

Event Postponed from Decoration Day On Account of Weather.

White Hall, May 31.—A registration day patriotic parade has been planned and will take place at 4 o'clock Tuesday afternoon, June 5. It was originally intended to have the parade on Decoration Day but rain interfered and then it occurred to the committee that it would be an excellent idea to have the parade on registration day and thus carry out plans of a kind already adopted by a number of other cities.

The Decoration Day exercises took place at the Princess theatre in the afternoon and the Methodist church at night. C. J. Doyle of Springfield made an eloquent and patriotic address in the afternoon. E. L. Wendell, a local orator of no mean ability, made the principal address at the night session. At both gatherings the singing was by a chorus of forty male voices under direction of Miss Emma Duncan, member of the well known quartet of Duncan Sisters. H. O. Tunison was chairman at both afternoon and evening meetings.

BARGAIN SALE
For FRIDAY only—property 287 Sandusky street—house recently damaged by fire. If not sold Friday will rebuild—a bargain if you are game.
A. M. UPHAM.
Care L. P. Allcott.

Eb Spink and Earl Spink returned yesterday from a fishing trip to Chandlerville. They found the roads very muddy but were able to drive from Chandlerville to Jacksonville in about two hours' time.

SEEK TO CONTROL COAL PRICES IN ILLINOIS

State Council of Defense Planning Measure to Protect the Public—Operators in Conference May Agree To Fair Scale of Prices.

The Illinois state council of defense, it is said, has inaugurated an effort to secure control of Illinois coal mines. This action was decided on at a recent meeting of a sub-committee and it is said that the council will be asked at a session Saturday to take action of this kind. If it is found that the state has no authority then an appeal will be made to the federal government.

Members of the council declare that present prices are entirely too high and that the coal mine operators are making more than legitimate profit on their product. But they are particularly concerned about the future and believe that unless something is done that Chicago and the rest of the state will be in more serious condition this winter than was true last winter. It is the opinion of members of the committee unless some means of control can be found that present prices will be increased from \$4 to \$2 per ton by the fall months and that prices will be even higher during the winter.

Conference of Operators.
According to a statement by Henry M. Hyde, special writer for the Chicago Tribune, a conference of coal mine operators will be held soon, at which it is possible that an agreement may be reached fixing a fair maximum price for coal which the operators will agree to maintain throughout the year. It is understood that among the operators there are a number who believe that for patriotic reasons coal prices should be controlled and that higher figures should not be demanded even though they can be obtained from manufacturers who are making so much money themselves that they are not at all close on the fuel buying proposition. Others of the operators aside from their patriotism have a feeling that unless some concessions are made and a voluntary agreement made on their part to maintain prices somewhat near present levels, that the government will certainly take a hand and compel them to reduce prices now asked.

Entitled To Fair Profit.
It is a situation in which the public is greatly interested and is beginning to look more hopeful from the consumers' standpoint. The public believes that the coal mine operators are entitled to fair profit on their large investment including proper allowance for increased cost of mine operation, but they do not believe that profits of 200 per cent are permissible or proper.

Men's genuine Poros-Knit union suits \$1.00. Same price as last year, at Tomlinson's.

DR. BONSAI HERE TO VISIT COLLEGE CHUM

New York Minister Enroute Home From Presbyterian Assembly Is Guest of Dr. Madden—Were Classmates at Drew Seminary.

Rev. Geo. H. Bonsai, of Haverstraw, N. Y., arrived in the city Thursday morning and will be the guest for a few days of Rev. and Mrs. E. B. Madden, 729 West State street. Mr. Madden and Mr. Bonsai were chums at Drew Theological Seminary, Madison, N. J., from which institution they were graduated in 1891.

Soon after graduation Dr. Bonsai entered the ministry of the Presbyterian church. For the past fifteen years he has been pastor of the Presbyterian church at Haverstraw, a beautiful and historic town on the west shore of the Hudson river and far from West Point. During this pastorate his congregation has built a modern church at a cost of \$70,000. Dr. Bonsai is on his way home from the general assembly of the Presbyterian church at Dallas, Tex., to which body he was a delegate. Dr. Madden regrets that, owing to the baccalaureate services of the I. W. C. next Sunday, his congregation will not have the pleasure of hearing his friend preach.

Potato chips are delicious fried in Mazola oil. Step in to Vannier's and sample them.

BIRTHDAY OF CANADA'S Viceroy

Ottawa, Ont., May 31.—Numerous messages of greeting have been received at Rideau House to remind the Duke of Devonshire that today marks the beginning of his fifth year. Since his arrival in Canada last summer to succeed the Duke of Connaught as Governor General the Duke of Devonshire has won a high place in the regard of all classes of the people. Recently he has visited a number of cities of Ontario and has everywhere met with a most cordial welcome.

OFF FOR AD MEN'S CONVENTION

Boston, Mass., May 31.—Headed by the Pilgrim Publicity Association of Boston, the New England delegates to the annual convention of the Associated Advertising Clubs of the World departed from this city today for St. Louis where the convention is to be held next week. The party will travel by rail to Burlington, Iowa, from which point the journey will be made by steamer down the Mississippi to St. Louis. Stops will be made en route to inspect the great dam and power plant at Keokuk and at Hannibal, the boyhood home of Mark Twain.

NAVAL OFFICERS DAUGHTER A BRIDE

Washington, D. C., May 31.—A wedding of interest in navy circles today was that of Miss Julia Peck, daughter of Commander Robert G. Peck, U. S. N., retired, and Mrs. Peck, U. S. N., retired, and Mrs. Peck, U. S. N., retired, and Mrs. Peck, U. S. N., retired. The ceremony was performed at the home of the bride's parents in Georgetown.

COW TESTING RECORDS COMPILED FOR MONTH

Fifteen Scoring Highest in Jacksonville and White Hall Association Listed—C. W. Clampt Owns Cow With Best Record.

The first report of the Jacksonville-White Hall cow testing association has just been made by R. E. Stocker, official tester. The report is for the period of thirty days ending May 31 and the records of the cows presented includes those which have produced more than 45 pounds of butter fat or 1,200 pounds of milk during the period.

The highest record was made by a grade Holstein owned by C. W. Clampt. This cow is eight years old, was fresh Dec. 1, 1916 and produced during the thirty days test 1,739.1 pounds of milk and the percent of butter fat was 4.2. This made a total of 73.4 pounds of butter fat during the period. The present price of butter fat is 43c per pound and that has been about the average thru May, so that it will be seen that this cow made an excellent record. The next highest producer was a grade Jersey owned by W. S. Corsa of White Hall, this animal producing 54.74 pounds of butter fat.

Potter Bros. of this city had in the list a grade Jersey which produced 1,019.6 pounds of milk with the average butter fat of 4.8 per cent. There are twenty herds included in the Jacksonville-White Hall association and a number of others can be cared for and applications from owners have been received. The report which is given below is signed by R. E. Stocker, the official tester, and by Lloyd Luckman, secretary of the association.

Interested in Association Work.

The interest in cow testing associations in Illinois has grown very rapidly as dairy men have come more and more to realize the importance of the work. Experience has shown that only by keeping a production record of the cow can her worth be accurately determined. Physical examination of the cow and haphazard guessing as to what she will produce will not furnish sufficient data for judging her value. It is said that as a result of keeping records both as to feed and milk production that dairymen have found that their ideas as to the best and the poorest cows in his herd have been incorrect.

The plan for the organization of cow testing associations which is advocated by the animal husbandry department of the University of Illinois, contemplates about twenty-six members for an organization owning about 500 cows. The plan followed is for the official tester to spend one day a month with each member of the association, taking accurate weights of the amount of feed used, the amount of milk produced and then testing the milk as to butter fat. In the Jacksonville-White Hall association which is stated, just completed its first month of testing, a total number of 272 cows were tested and of this number twenty-five produced more than forty pounds of butter fat during the month.

The Best Records.

The records of the fifteen cows making the best showing are given herewith.

C. W. Clampt, cow No. 16, grade Holstein, 8 years old, produced 1,739.1 pounds of milk, per cent of butter fat 4.2, total butter fat 73.94.
W. S. Corsa, Beauty Fox, grade Jersey, 4 years old, produced 1,013.7 pounds of milk, per cent of butter fat 5.4, total butter fat 54.74.

W. S. Corsa, Roster's Last, registered Jersey, 4 years old, produced 942.3 pounds of milk, per cent of butter fat 5.6, total butter fat 52.77.
J. P. Dean, Testin' grade Jersey, 5 years old, produced 1,075.7 pounds of milk, per cent of butter fat 4.6, total butter fat 49.48.

C. W. Clampt, No. 12, grade Holstein, 6 years old, produced 1,289.6 pounds of milk, per cent of butter fat 3.8, total butter fat 49.

Potter Bros., Brindle, grade Jersey, 8 years old, produced 1,010.6 pounds of milk, per cent of butter fat 4.8, total butter fat 48.51.
Potter Bros., Julie, grade Holstein, 7 years old, produced 1,302 pounds of milk, per cent of butter fat 3.7, total butter fat 48.17.

C. W. Clampt, No. 4, grade Holstein, 9 years old, produced 1,465.6 pounds of milk, per cent of butter fat 3.2, total butter fat 49.90.

M. S. McCollister, No. 9, grade Holstein, 5 years old, produced 1,314.4 pounds of milk, per cent of butter fat 3.7, total butter fat 48.63.

W. S. Corsa, Tuney, grade Holstein, 6 years old, produced 858.7 pounds of milk, per cent of butter fat 5.2, total butter fat 44.65.

C. W. Clampt, No. 18, grade Holstein, 9 years old, produced 1,116 pounds of milk, per cent of butter fat 4, total butter fat 44.64.

J. M. Stewart, Nig, grade Jersey, 8 years old, produced 948.6 pounds of milk, per cent of butter fat 4.7, total butter fat 44.58.

Nathan Tanner, Guernsey, grade Guernsey, 7 years old, produced 1,218.3 pounds of milk, per cent of butter fat 3.6, total butter fat 43.56.

C. W. Clampt, No. 8, grade Holstein, 5 years old, produced 1,364 pounds of milk, per cent of butter fat 2.2, total butter fat 43.65.

Reynolds Bros., No. 19, grade Holstein, 7 years old, produced 1,178 pounds of milk, per cent of butter fat 3.6, total butter fat 42.71.

FOOD AND WASTE COMMISSION.

Madison, Wis., May 31.—The food and waste committee, recently organized by the Wisconsin branch of the National Council of Defense, met in this city today to perfect a permanent organization and outline its plan of activities. The committee will wage a State wide campaign for the conservation of food and elimination of waste. A part of its work will be to educate housewives in the best methods of canning, preserving and storing surplus fruits and vegetables. A proposal to organize community canning clubs throughout Wisconsin is under consideration.

U. S. NOW PAYING OWN DEBT TO FRANCE

History Shows Propriety of Sending Army Engineers—Services of Col. Gridley and Associates are Recalled

Washington, D. C., May 31.—It is singularly appropriate that the first of our soldiers sent across the water to aid the French should be a detachment of United States army engineers. During our war for independence the American army enjoyed the services of several officers from the Royal Corps of Engineers in the French army. From the lack of trained engineers in the native continental establishment, their assistance was highly appreciated, and for many years this foreign influence preponderated in the service.

The Corps of Engineers may be described as the oldest and steady branch of the military establishment of the United States. On the day before the battle of Bunker Hill one chief engineer and two assistants were authorized for the army. It was not, however, until March 11, 1779, that the engineering corps was formally established by a resolution of congress.

The First Engineer

The first engineer of the Continental army was Col. Richard Gridley of Massachusetts, who in his early career had served with Wolfe at the capture of Quebec. He it was who laid out so skillfully the works on Bunker Hill the night before the battle of June 17, 1775, and later planned the fortifications around Boston.

In 1776 Col. Gridley was succeeded as chief engineer by the celebrated Rufus Putnam, who superintended all of the defenses of New York. But at the end of a few months, owing to some dissatisfaction with the action of Congress, Gen. Putnam quit the engineering corps and took command of a Massachusetts regiment.

Gen. Putnam's successor as chief engineer was Louis du Portail, a celebrated French soldier and engineer, who had come to America with Lafayette. General du Portail was the directing engineer at the siege of Yorktown, and was one of the general officers particularly named by Washington after the capitulation. From the very beginning of our nation's history, in times of peace as well as in war, the Engineer Corps has been one of the most prominent arms of the military establishment. As set forth in the regulations, the duties of the Corps comprise reconnoitering and surveying for military purposes, the selection of sites, and formation of plans, projects, and estimates for military defenses of every kind; the construction and repair of fortifications and defensible works of every description, whether temporary or permanent; the planning, laying out, and superintending all military works, defensive or offensive, of troops in the field, camp

or cantonment; the planning and construction of military bridges, railroads and highways; the planning, laying out and superintending military trenches, parallels, saps, mines, and other works of military attack and siege.

The Engineer Corps

The Engineering Corps has distinguished itself in every war in which the United States has been involved. From the battle of Bunker Hill, when Col. Gridley, the first chief engineer, was seriously wounded, the officers and men of the corps have always been out in front, when there was fighting to be done.

In times of peace the services of the Engineer Corps have been of an equally distinguished character. The roads traveled by the pioneers of our national development from the Appalachian mountains to the Pacific coast were constructed by the army engineers. The labors of the Engineer Corps upon military works, river and harbor improvements, the early transcontinental railroad, and numerous other internal improvements, have been prodigious.

The contributions of the officers of the Engineer Corps to scientific literature, thru elaborate reports upon its engineering works and surveys, have attracted favorable comment from the foremost scientific men of the world.

The War Department has made public its plan to raise nine engineering regiments for service in France. The plan is to send at least 10,000 skilled men to operate and maintain the French railroads behind the lines. It is reported that an entire American railroad system will replace the present French system at the front, and that Americans will fill all positions on the road.

Yes, Tomlinson sells Cooper's union suits for \$1.00. Same price as last year.

LOUISVILLE MAY HAVE FEDERAL RESERVE BANK

Louisville, Ky., May 31.—A federal reserve branch bank may be established in Louisville soon. Representative Swager Sherley and Senator Ollie M. James have presented the project to Secretary McAdoo and, according to advice received from Washington, have about convinced him of the wisdom of the plan.

Formal action, it was said, will be taken by the treasury department after certain amendments to the federal reserve act become law and may also include establishment of branches in Pittsburgh, Seattle, Spokane, Portland, Denver and Omaha. A new branch bank already has been authorized at Baltimore.

The total resources of the banks in the proposed Louisville district are estimated at \$150,000,000 of which \$70,000,000 is credited to Louisville. Central and western Kentucky now is in the St. Louis federal reserve district and eastern Kentucky in the Cleveland district.

Mrs. Marjorie McEvers of Louisville was a shopper yesterday with Jacksonville merchants.

URGES LEGISLATION TO CONSERVE MEAT SUPPLY

President of Saddle Horse Breeders' Association Favors Prohibition of Marketing Immature Livestock — Small Farmers are Reliance of People for Meat Supply.

Louisville, Ky., May 31.—Federal legislation to prohibit the marketing of immature live stock was urged by General John B. Castleman, of Louisville, president of the American Saddle Horse Breeders' association, in a statement today. He suggested that this legislation could be enacted under either the welfare clause of the constitution or by expansion of the powers of the Interstate Commerce Commission to prohibit their shipment in any form.

Quoting from a previous address before the association of which he is president, General Castleman asserted that increasing population and diminishing range in the United States all pointed to the 6,000,000 small farmers as reliance of the people for their meat supply. He declared that with this situation confronting the country, the government legitimately could turn attention to the necessity of cheapening the cost of food products and to compel improvement in all food producing animals.

He quoted from statistics to show that annually 13,956,686 cattle, 3,802,482 calves, 51,245,728 hogs, 17,081,768 pigs, 23,222,136 sheep and 7,740,712 lambs with a combined weight of 20,218,095,108 pounds are slaughtered and that the total would be increased 8,283,059,009 pounds if the farmers would keep their calves, lambs and pigs to maturity.

"Thus," said General Castleman, "the farmer's added contribution to the meat supply would be an average of about 80 pounds per capita and he would help to destroy excuse for speculative robbery in foodstuffs."

General Castleman pointed to minor defects in the plan from the dairy farmer's standpoint who, however, he said, "must do something for the common good."

"We have resources incomparably greater than those of any country in the world," he said. "We owe a duty to the man of modest means, and to mankind which may be somewhat fulfilled by better providing for the immediate present and near future. For when peace shall have been achieved and the liberties of the world secured, the United States will be the chief supply market until normal industries of other countries shall have been reinstated and their awfully depleted manhood strengthened."

Don't fail to read Vannier's ad on page 3. It means you.

BIRTH RECORD.

Mrs. J. F. Myers has received word from her son, Martin Riggs, of Mount Washington, Mo., that they are the proud parents of a baby girl, Virginia May, born May 29.
